## Activities of Biodiversity Club

### Report for the Year 2018-19

The Biodiversity Club of Devaswom Board College, Thalayolaparambu, started its activity for the year 2018-19 by celebrating **World Environment day on the 5<sup>th</sup> of June 2018**. During the morning hours, the club members were engaged in campus cleaning. They sorted the plastic and other non-degradable wastes from the campus. Principal Dr. R Anitha planted sapling of Golden shower tree in front of the college campus. The students distributed the seedlings of *Murraya* to the staff members and planted saplings of fruit trees in the college premises and also at the Shantistall.

The Club conducted a **Seminar cum discussion on Regional Environmental issues** for Final Year students on the 5<sup>th</sup> of September 2018. The students were given a chance to identify and discuss on the recent issues they face in and around their locality. The whole programme was exclusively steered by the club members who were very much excited in conversing the matter to their friends.

**Assessment of plant diversity and analysis of vegetation** of college was initiated on 09.02.2019. The students were divided into groups and they enlisted the herbaceous plants to find out the region wise abundance of each species in the campus.

**Biodiversity audit** for the year was steered by the club members, seizing the opportunity to showcase their expertise by identifying the majestic tree species that grace the campus.

**Campus cleaning- sorting out of wastes**

**Inauguration of Environment Day celebration by Planting Golden shower tree sapling by Principal Dr R Anitha**

**Distribution of *Murraya* (Curry leaves) seedlings to the faculty members**

**Club members planting saplings of trees at Shantistall.**

**Seminar cum discussion on Regional Environmental issues among the students**

**Assessment of plant diversity and analysis of vegetation**

**Biodiversity audit -Enumeration of trees in the campus**
