Biodiversity club Activities conducted during the year 2019-20

1. Celebration of World Environment Day was done by an Awareness Campaign named "Biodiversity and Environmental issues" on the 8th of June 2019. A field trip was jointly organized by Dept. of Botany and Biodiversity Club for both Botany students and members of Biodiversity Club which created an open forum for discussing the threats faced by the biodiversity of different areas due to the current environmental hazards. This collaborative endeavor not only unveiled the fragility of our ecosystems but also shared commitment towards a greener, more harmonious world.

Field visit by Club members

Biodiversity Audit for the year 2019-20 was carried out in association with **Biodiversity Club** with Students' participation. Students were able to identify the flora of the campus and also the diversity of faunal community. This was an initial attempt for carrying out the diversity analysis. The club members got an opportunity to directly observe the infestation of alien species in the locality.
