Orientation Program

A library orientation program for students is an initiative to introduce them to the resources, services, and policies of the library. It helps students navigate the library effectively and encourages them to make optimal use of available resources for their academic pursuits. Orientation program includes, welcome and introduction, overview of library services and library policies.

Classes during orientation program

Special Collections

Satyagraha Smarana

Our institution, situated in the Taluk of Vaikom, is commemorating the Vaikom Satyagraha through a collection of books and articles called "Satyagraha Smarana." Such initiatives are crucial for preserving and disseminating the historical importance of social movements that have played a key role in shaping the cultural and social landscape of a region.

Dakshina- Instituted by Alumni in the year 2022-2023

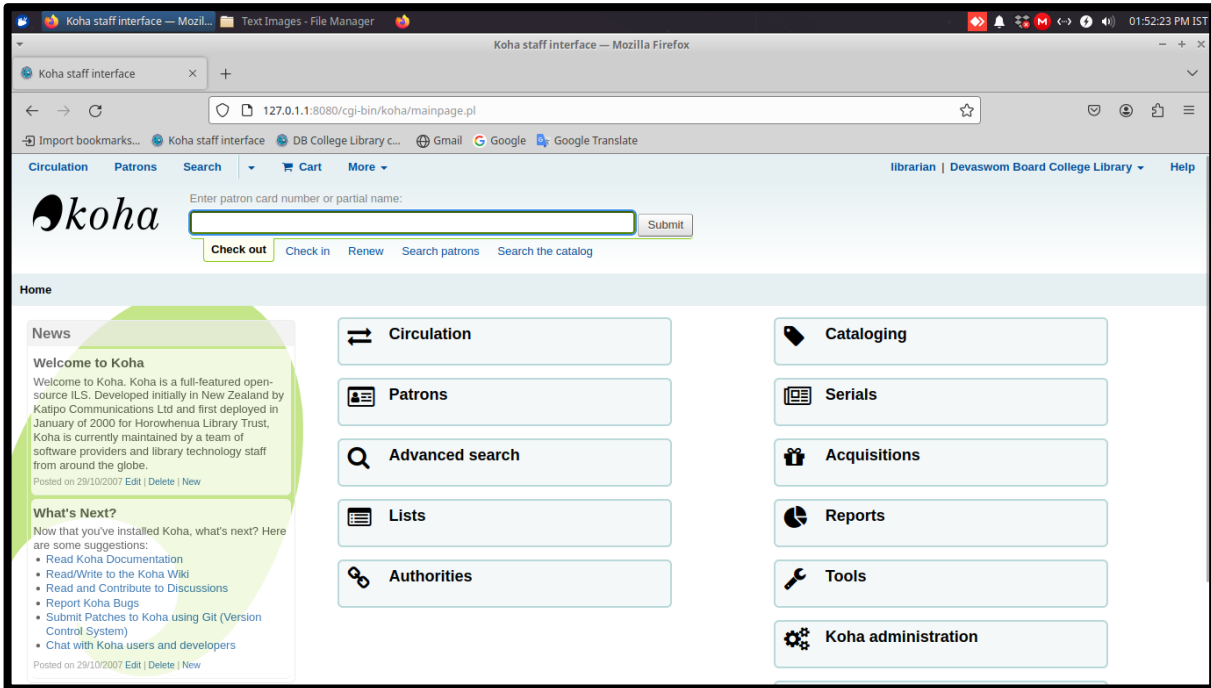

The library has been enriched with a thoughtful and generous donation from alumni, who have graciously contributed a special collection “Dakshina” comprising their personal books and insightful write-ups. This dedicated section within the library serves as a testament to the enduring connection between the institution and its former students. The alumni's literary contributions not only provide a valuable resource for current students and faculty but also create a tangible link between past and present, fostering a sense of community and shared knowledge within the academic environment.

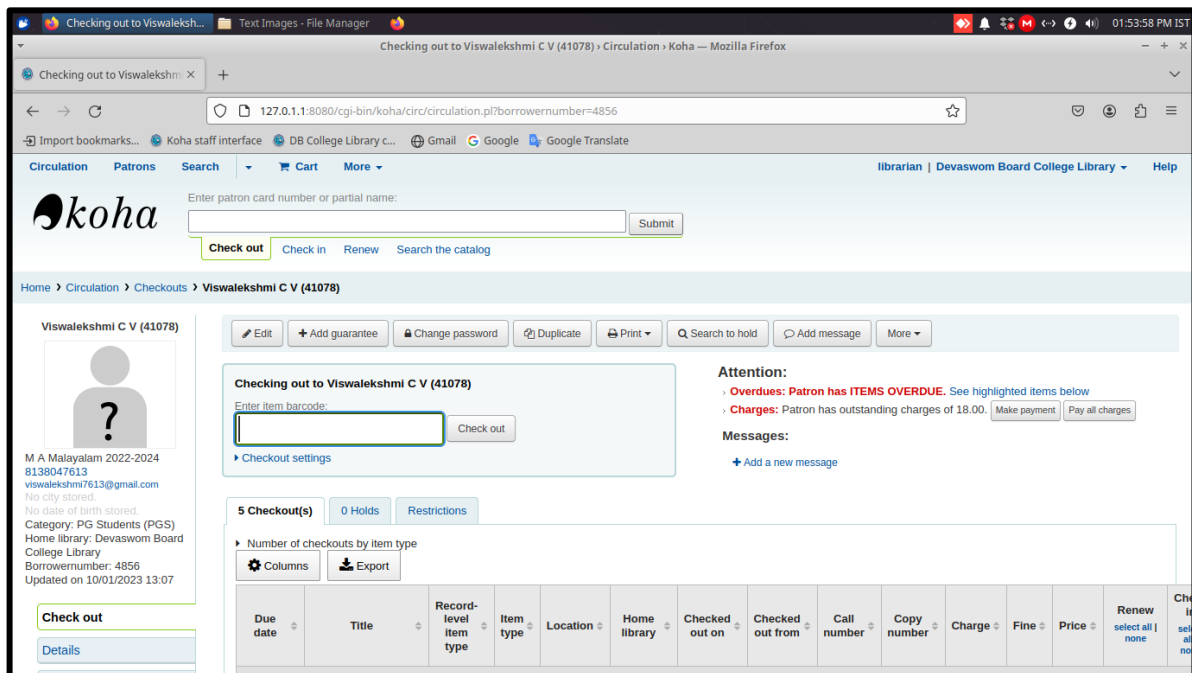

Dakshina- Instituted by Alumni

Koha Software

- Library is partially automated with Koha Software. It provides a suite of software modules designed to manage and organize library resources efficiently. Purchase of RFID, as part of RUSA 2.0 scheme, for complete automation of library is underway.

NVDA Software

NVDA, or Non-Visual Desktop Access, is a free, open-source screen reader for Microsoft Windows. It is designed to assist visually impaired or blind users in accessing and navigating the computer. NVDA reads aloud the text on the screen, making it possible for users with visual disabilities to interact with software applications, browse the internet, and perform various computer tasks.
